

States of Matter

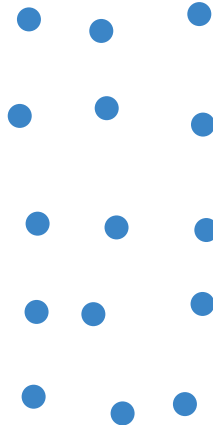

Page 1 of 2 — everything around us is a solid, a liquid, or a gas.

Solid

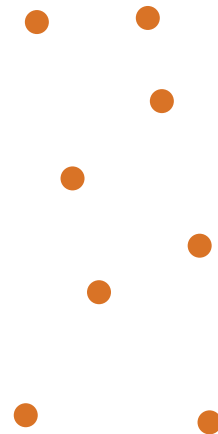

Packed tightly — keeps its shape

Liquid

Close together — takes the shape of its container

Gas

Spread far apart — fills any space

Can you think of your own example of each? Write one below:

Solid: _____

Liquid: _____

Gas: _____

Sort the Items

Page 2 of 2 — write each item under Solid, Liquid, or Gas.

1. Ice cube

3. Steam

5. Milk

7. Wood

2. Juice

4. Rock

6. Balloon full of air

8. Puddle of water

Solid

Liquid

Gas
